

Salvation Testimony (Sister Ang 25-09-2015)

Before I accepted Jesus Christ as my personal Savior, I was facing difficulties in my family with my mother. Due to livelihood, my mother required me to help in the household chores as she was busy working at home as a tailor. I was required to do a lot of house works everyday. Because of that, I hard had time to go out for school activities outside school hours. I was forced to remain at home most of the time though I wanted very much to be with my friends in school. Deep in my heart, I complained and felt sad why I was facing this restriction and harsh discipline at this young age.

One day, a friend brought me to join the Christian Fellowship in school. I was very impressed by the dedicated Christian teachers and students in the group. Not long after that, I accepted Jesus Christ as my personal Savior. From then on, I began to lead a positive and hopeful life. In the beginning stage, my mother was treating me in a worse manner as she objected my faith in Jesus. She even tried to chase me out of home. However, through perseverance and prayer, my mother changed her attitude. After some time, my mother began to accept me as a Christian and more wonderfully, she allowed me to go out for church meetings. My relationship with my mother had turned from fear to love due to her acceptance and understanding.

After I believe in Jesus, there are positive changes in my present life. Not only that, I also know I have the hope of eternal life. Even if I have to leave the world tonight, I am sure that I can go to heaven. Dear reader, have you also believed in Jesus?
